

may newsletter

Hello May!

Summer is here and it's the last month of school for our kiddos. **Please drive slowly and be cautious as we have many walkers too.** We wish all our northerners safe travels and look forward to your return later this year.

We have had a great month of celebrations and are settling into our new office. We would love you to stop by for a tour and say hello.

Thank you for your patience during this time of renovation. **The pool has had some mechanical upgrades and will get heater repairs and other renovations soon.**

They are also starting the **clubhouse building renovation this month**, and doing some water system repairs and parking lot paving and plan to have other amenities ready for use!

We expect to have a slow down on new homes coming in and more homes that are here being completed.

Hurricane Preparedness Free County Preparedness Guides *at the office*

Our staff has been tidying up some areas and preparing for storm season.

Please make sure all current contact and vehicle information, occupants and animals are registered so we can have an accurate count for authorities should they request it and for delivery of mail as we all know that is always a necessity. In the event of an evacuation order we need to know where you will be going and a phone number to reach you.

We have a hurricane preparedness booklet from the county to help you prepare.

Items in the Compound

If you have items or vehicles in the parking lot or compound that are not LWV tagged or identified they could be towed. Please check to make sure the LWV sticker you were given is on your items/vehicles and that they are registered.

During this time of year it's great to see homesites being cleaned and fixed up. If you are willing to help a neighbor in need please let us know and we will form a group. If you would like help with your weeding or cleaning outside please let us know. We want our community to look it's best and "many hands make light work". All staff are doing assessments regarding homesite violations. Some homesites are in the violation enforcement process now since the pandemic restrictions have been lifted. If you have items in the compound area, remember, your upkeep is necessary and you will be billed for any extra space you are using.

BULK PICK-UP is SATURDAY, MAY 14

(the 2nd Saturday each month only)

Put your items curbside the night before
DO NOT put your items out prior to May 13

This month we will have a **Mother/Father's day celebration**, local **grandparents raising grandchildren will host a cornhole contest here with resident discounted entry**, **new ladies prayer and tea time**, a **ring bomb night** and our normal plastic bag crocheting class, coffee hour, Texas Hold Em night, and church. Swimming aerobics is postponed for now, but will be returning when the heaters are up and going. **Look for more details on these events soon.**
